BY ACRYLIC IDEA FACTORY

Full-Color Acrylic Signs and Products

A Whole New Way to Look at Acrylic... 

# Let the **FUSION** begin!™

## The Fusion of Digital Graphics, Crystal-Clear Acrylic and Profits!

### **AcryliPrint™** Opportunity and Profit

The AcryliPrint™ FusionProcessor™ provides a high-margin opportunity in sign products for your business! You can offer full-color acrylic signs with the highest quality that your customers expect. With a potential average profit of \$600 to \$1,000 per operating hour, your payback period on the AcryliPrint™ FusionProcessor™ can be days, not years.

### **AcryliPrint™** Inkjet and Acrylic

The AcryliPrint™ FusionProcessor™ fuses inkjet artwork directly to crystal-clear acrylic. This unique process keeps the full-color and quality of the sign image and adds impact with depth and dimension. AcryliPrint™ FusionBlanks™ come in a variety of sizes and shapes. The results are stunning!

### **AcryliPrint™** Simple and Fast

Operating the AcryliPrint™ FusionProcessor™ is easy and requires no special training or skills. In less than an hour you can set up and start producing AcryliPrint™ products.

### **AcryliPrint™** Affordable and Cost Efficient

The AcryliPrint™ FusionProcessor™ is affordable to own and operate. It has the capacity to produce over 400 8"x10" finished AcryliPrint™ FusionBlanks™ in ONE day. When you consider a conservative \$20 profit per plaque (\$8,000), your investment could be returned within days. Its operating costs are affordable, giving you higher margins and unmatched profits.

PATENT PENDING

# 4 EASY STEPS to High Profit!

## 1: Print it!

Print sign artwork on your inkjet printer.

## 2: Place it!

Peel the liner and place your artwork on the AcryliPrint™ FusionBlank™

## 3: AcryliPrint™ it!

Place the AcryliPrint™ FusionBlank™ paper side up, into the AcryliPrint™ FusionProcessor™. Cover it with the gray AcryliPrint™ FusionPad™. Close the drawer and press the green button.

## 4: Trim it!

After 90 seconds, remove the finished AcryliPrint™ sign and trim the edges.

# FREQUENTLY ASKED QUESTIONS:

## What is AcryliPrint™?

AcryliPrint™ is the fastest and easiest method for creating full-color acrylic products. It is a unique, state-of-the-art, patent-pending process for fusing inkjet art to crystal-clear acrylic. The result is a beautiful, permanent, full-color acrylic sign your customers will love.

## What do I need to AcryliPrint™?

You'll need these three items:

- Artwork printed from an inkjet printer.
- AcryliPrint™ FusionBlank™  
Our exclusive clear acrylic substrate.
- AcryliPrint™ FusionProcessor™  
The equipment that fuses your digital artwork to the AcryliPrint™ FusionBlank™.

## What printers and types of paper can I use?

AcryliPrint™ was designed to work with most inkjet printers using standard matte, luster, or gloss photo paper. No special inks are required.

## Do I need to be a graphic artist to create an AcryliPrint™ Sign?

Creating AcryliPrint™ Signs is easy. Your AcryliPrint™ FusionProcessor™ package includes over 100 pre-made, AcryliPrint™ digital backgrounds ready for customizing.

## Who is Acrylic Idea Factory?

Since 1948, Acrylic Idea Factory has been recognized as the world's leading manufacturer of ultra high-quality acrylic products. Patent-pending AcryliPrint™ was invented by its founders in 2006 and has since been widely used in other industries. The AcryliPrint™ Process is now available to the sign industry for the very first time.
