

Has the fastest print speeds in the industry. When coupled with the 3-year outdoor durability without need for lamination it is the perfect machine.

Leverages Mutoh's Patented interweave print technology to eliminate banding and achieve print speeds up to 300 sqft/hr, fastest on the market.

Take control of your color matching challenges with the optional on-board spectrophotometer. SpectroVue will enable you to rely on your Mutoh's ability to print consistent color from job to job, month to month, and material to material.
