

Produces prints with 3-year outdoor durability without need for lamination. Perfect machine to print vehicle wraps and window graphics.

Leverages Mutoh's Patented interweave print technology to eliminate banding and achieve print speeds up to 313 sqft/hr, fastest on the market.

Take control of your color matching challenges with the optional on-board spectrophotometer. SpectroVue will enable you to rely on your Mutoh's ability to print consistent color from job to job, month to month, and material to material.

- 90% Profit Margins
- Service & Support You Know & Trust
